

We would like to put on record our delight at the way Exquisite Woods laid our solid oak floor in our lounge and dining room. They were very meticulous and worked extremely diligently till the job was finished. They were very thorough with every aspect of the job including cleaning all areas and we are absolutely delighted with the end result. The oak flooring looks lovely and has exceeded our expectations.

Exquisite Woods went out of their way to help us and provided excellent customer service. Even when we scratched the floor moving heavy furniture, they returned to put it right at no extra cost. Thank you for a job well done. We would have no hesitation in recommending Exquisite Woods to anyone who requires a high quality solid wood floor.
