Review to Exquisite Floors.

Having had parquet flooring laid in the past, we decided to have parquet in our new house.

Indeed, we had four large rooms laid.

Three with 'herringbone pattern' and one with 'Versaille pattern'.

All rooms were laid with top grade solid oak.

The service provided, the materials used, the initial meetings and the laying staff were all first class and extremely polite.

Clearly, an experienced team.

From start to finish everything was very professional and also at very competitive pricing.

We would unreservedly recommend this business to any potential customers on every level.

It was a great experience and the finished flooring is quite superb and most impressive.

Truly,
