

Exquisite Woods did a marvelous job. They laid a reclaimed teak parquet floor in my lounge.

The result is stunning—beautiful craftsmanship and precision care taken in the individual sanding and laying, by hand, of the solid wood blocks.

The parquet floor has greatly enhanced my home; the subtle, warm tones of the wood with the herring-bone design are a joy to behold.

Exquisite Woods were very helpful and highly professional throughout every stage of the work.

I recommend the company, Exquisite Woods.
