

14th April 2012

To all at Exquisite Woods,

I inherited some rather special Mahogany blocks and I looked for a very long time to find a company that were experienced in their craft to be able to lay the parquet in my Grade II listed farmhouse.

From start to finish we received a professional and Superior quality service. All at a competitive price.

I was amazed at the amount of equipment and precision tools used to get the level of detail and accuracy.

A great deal of care was taken into laying the floor and I was blown away by the meticulous program that was being made.

Given that the wood is reclaimed Mahogany, you could never tell it was reclaimed by looking at it.

When people visit they are genuinely astonished at the parquet often asking/commenting 'Wow, has that always been there?', 'its in such good condition', 'its absolutely stunning'.

I can only stand back and smile as I'm not one to brag, however the parquet floor is truly special.

The pattern, the precision, the borders, detail around the fire place, the rich colour and the natural finish are all to a truly exceptional high standard. Thank you for creating, what I claim to be a beautiful work of art.

Yours sincerely,

Daniel McGinn - Wiltshire
